# CORVARA ROOF BOXES

## CORVARA: THE ELEGANT PREMIUM LINE

With the latest generation of Corvara roof boxes, the holidays have just become even more attractive: Inspired by contemporary automobile design and available in two colours, all models are convincingly spacious. Corvara roof boxes are equipped with the patent pending KAMEI DuoLift: the box can be opened from both sides. The right-side opening version is also still available. Moreover the silver colour version gets the new developed „Technical Grain“ surface structure. These structure gives your roof box an individual look.

Technical competence is a key to extreme success - even beyond sports.

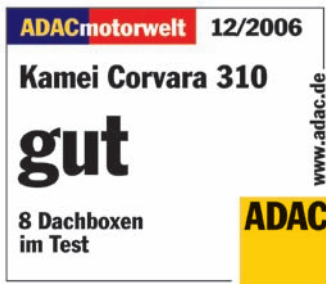

### CORVARA ROOF BOX - 310

#### Corvara 310\_silver

Dimensions (L x W x H):	max. outside: 220 x 60 x 36 cm max. inside: 208 x 50 x 32 cm
Volume:	310 litres
Net weight:	14 kg
Max. load:	75 kg
Max. weight:	89 kg loaded
Colour:	silver - matt (Technical Grain)
DuoLift:	0 81426 07
Opening right*:	0 81420 07 / Z 071 942R 666

## Convincing performance in ADAC roof box test

„City-Crash-Test: undamaged“  
 „simple and safe to install“  
 „absolutely watertight“  
 „top quality workmanship“  
 „rugged construction“

#### Corvara 310\_black-metallic

Dimensions (L x W x H):	max. outside: 220 x 60 x 36 cm max. inside: 208 x 50 x 32 cm
Volume:	310 litres
Net weight:	14 kg
Max. load:	75 kg
Max. weight:	89 kg loaded
Colour:	black-metallic - acryl/high gloss
DuoLift:	0 81426 41

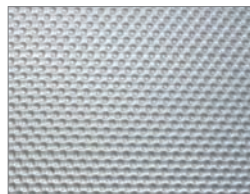

KAMEI Corvara 310 ranked „good“.

Only two of eight boxes in the test received the overall ranking „good“, two were assessed as „satisfactory“, four as „defective“

## DELPHIN ROOF BOXES

### DELPHIN: THE SPORTY ECONOMIC LINE

In the quest for sporting challenges, it is reassuring when everything goes right at the start.

The leisure-seasoned Delphin roof boxes carry everything that appeals to your fancy. Available in two colour options, a sporty silver-matt or an elegant black-metallic design.

Enjoy life. Even when packing.

Reliable, practical and proven in their hundreds of thousands: Delphin roof boxes with their Comfort Sliding Fitting and proven locking system keep you on top of it all in your free time. The performance is right. And so is the price.

KAMEI Delphin 340 K in ADAC roof box test:

„simply and safe to install“  
 „absolutely watertight“  
 „rugged construction“  
 „very good safety driving features“

The KAMEI Delphin 340 K gets in the overall ranking the note „good“. At the test specific in the area safety driving.

## KAMEI ROOF BOXES: PROVEN PREMIUM QUALITY

For more than 50 years we have been developing high quality automotive accessories - with a special emphasis on excellence in aerodynamics and design. With KAMEI roof boxes, you opt for mobility - in top shape. For us that means:

- + durable, resistant and innovative products,
- + 6 years guarantee
- + GS certified safety
- + simple installation and high operating comfort,
- + Safety lock systems

We subject our roof boxes to numerous crash tests and vibration tests at the centres of TÜV and the German Centre for Aerospace (DLR). As a result, today, our products already meet the strict requirements of the latest version DIN 75 302 / ISO 11154. In addition, KAMEI roof boxes are exhaustively tested in the wind tunnel, paintable and fully recyclable.

### Durable and resistant.

The DUROKAM® thermoplastic material used by KAMEI is a modified >ABS< (acrylonitrile butadiene-styrene). The new formula developed to KAMEI specifications gives the material outstanding qualities: lightweight, impact resistant, dimensionally stable and long-lasting.

### Paintable:

All KAMEI roof boxes are outstandingly well-suited to paints and finishing coats. However, for perfect results, the latest application instructions of the relevant paint manufacturer must be taken into account.

### For your safety:

To help drivers remember the new vehicle height, all KAMEI roof boxes are supplied with a warning sticker. Position the dimension entries in the driver's field of view.

### Also:

We will be happy to take back your old roof box in return for proof of purchase of a new KAMEI box. For this purpose, please send the old box, carriage and duty paid, to our plant in Wolfsburg.

### What should you do if you lose your keys?

On our website [www.kamei.de](http://www.kamei.de) you can find a contact form. Please fill it out and we send you immediately the spare key. Or call us by phone and we want to help. Tel. +49-(0) 180 - 5 26 34 46 36. **Important:** Please notice beforehand your key number.

Made in Wolfsburg  
(Germany)

# TIPS & TRICKS FOR KAMEI ROOF BOXES

Fig. Sandra Lahnsteiner  
Fischer Freeride White Crest Team  
Image: www.mirjageh.com

## CORRECT LOADING

If possible, place the heavy objects in the middle of your KAMEI roof box, so that the overall payload will be distributed evenly over the load-bearing rack and the car. All packed articles must be securely tied down to prevent slipping. For sports equipment, use only specially designed carrying systems. It is important to ensure that the load does not present any obstruction to closing the KAMEI roof box, in order to prevent malfunction of the locking system. Never exceed the maximum roof load specified by the manufacturer. The maximum overall weight („gross vehicle weight“) of your vehicle must not be exceeded.

## SAFE DRIVING

Your KAMEI roof box provides all the extra stowage space you desire - but it also demands that you adapt your driving style to the modified weight and height of your vehicle:

- Sensitivity to side winds will be increased.
- When loaded, the change in the centre of gravity of your vehicle will require you to modify your cornering and braking habits.
- Depending on the roof rack, the height of the vehicle will be increased by up to 60 cm. This must always be remembered when approaching low bridges or low entrance barriers (e.g. car parks).

What is the maximum speed that you can drive with your roof box?

There is no speed limit imposed by legislation.

However, KAMEI recommends a to speed of 130 km/h.

## MAINTENANCE TIPS

Regular maintenance prolongs the life span and maintains the operating functions and safety of your KAMEI roof box.

To prevent damage to the surface, use only solvent-free car wax and detergents containing no alcohol, chorine or ammonia additives, and do not use any cockpit sprays or cleaning agents containing oil. Clean and lubricate the locks with commercially available silicone sprays.

**Caution:** Remove the roof box and roof rack before using a drive-in automatic car wash.

# SPORT GRILLES - SCREEN

Combat the monotony of series production and consciously set trends. KAMEI sport grilles effectively enhance the sporty character of your vehicle.

KAMEI sport grilles require no official technical approval (e.g. TÜV, MOT). The steel grilles have a sophisticated long-term corrosion protection of OEM quality with black powder coating as a surface finish. High-grade steel grilles are either black or titanium-metallic powdercoated or galvanically chrom-plated.

## HEADLIGHT TRIMS

Small, but striking.

Headlight trims give vehicles that subtle yet individual touch for even more elegance. Small detail, big effect. For fans of sporty, individual looks of the finest quality.

KAMEI headlight trims either require no official technical approval (e.g. TÜV, MOT) or have general authorisation (e.g. ABE). All KAMEI headlight trims are made of easy-paint, black >ABS<. Supplied only in pairs or sets. Most are fixed in place with a single-component adhesive (polyurethane).

## REAR WING SPOILERS

### FOR NOTCHBACK VEHICLES

KAMEI rear wing spoilers greatly enhance aerodynamic features of your car. The spoiler marks the edge of the boot thus making parking much easier, and the integrated brake light greatly improves safety.

KAMEI's universal rear wings, with or without additional brake lights, fit an extensive range of vehicles. The spoilers are made from light ABS plastic and are simply to paint.

The fitting of a rear spoiler is very easy. For most models only an additional adapter kit is required; the relevant kit is listed in the attached chart. If a adapter kit is required, please order it together with the spoiler.

PAINTABLE

ABE ERTEILT

## REAR SPOILERS

### VOLKSWAGEN

# LOADING SILL PROTECTION

## FOIL

The favorable alternative: Loading sill protection as foil!

- + Optimal protection of the sill during loading and unloading of your vehicle
- + Long lifetime
- + Easy adhesive montage with supplied montage squeegee
- + Suitable for carwash
- + Perfect adapted fit to your vehicle model
- + UV - resistance

### STYLES

Silver 0 42... 07

Anthracite 0 42... 21

Transparent 0 49... 10

- + The look of your loading sill stays the same
- + Accurately for many vehicle types, or as universal trimming foil and so you can it also needed for:

Sills, Bonnet, Front and rear areas (bumpers), Wheel arches

## CENTRE ARMRESTS

Customised solutions: precise fit for numerous car models.

Unlike most of the centre armrests we know of in the carmakers optional accessory lists, the KAMEI Premium can also be adjusted lengthwise, and naturally has a roomy storage compartment.

We never stop adding to our range of Premium centre armrests for new car models. Contact us to see if we stock a centre armrest for your model.

How to order correctly :

Colour Code:     21 = Fabric, black\*  
                       11 = Leather, black\*  
                       05 = Fabric, light grey

(\*with cooling)

„Fabric“ black\*

0 14... 21

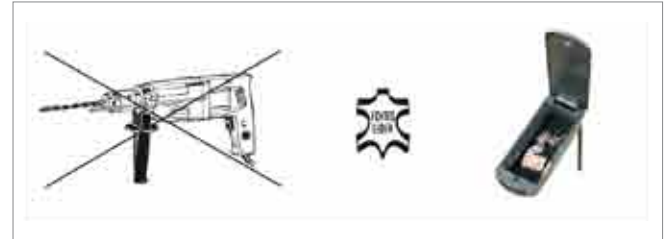

„Leather“ black\*

0 14... 11

„Fabric“ light grey

0 14... 05

Easy mounted without drilling - fixation on the seat rail.

The top is covered with high-quality leather.

Roomy storage compartment - also available with cooling to keep your beverages cold.

Can be folded upwards vertically to provide greater freedom of movement in urban traffic contexts.

The tilt is steplessly adjustable. Adjustable lengthwise.

Replace the „14“ at the front of our article number with a „13“ for the desired centre armrest with a cooler.

Art.-No: 0 14... = no cooler - Art.-No: 0 13... = with cooler

Centre armrest with cooling

0 13... 21 or. 11

## INTERIOR-COMFORT

### LUMBAR SUPPORT

Gives your back what it urgently needs: relaxation. With this world-wide patented lumbar support.

The most important advantages:

- + Relaxed driving due to correct anatomical posture
- + Easily adjustable for individual seat comfort
- + Universal fitting for all car seats
- + Removeable textile cover

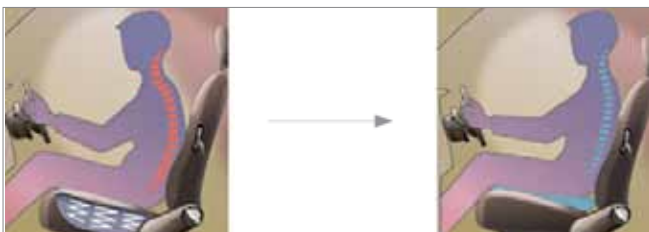

- + Universal fitting
- + Black
- + In compliance with expert medical opinion

0 15100 21

### CUSHIONS

The lumbar cushion prevents your back from aching and effectively support your spine.

The universal wedge-shaped super cushion made of permanently elastic, dimensionally stable, spezial foam stabilises oversoft vehicle seats. The cover is hardwearing and washable.

Super cushion

- + Durable cover
- + Spezial stable foam
- + Universal part

## INTERIOR-DESIGN

### CAR COAT HANGER

More comfort on holiday and business trips with the car coat hanger. Helps your jackets, suits, etc. keep their looks and don't crease. Fits most 4- and 5-doors vehicles. Simply fits on to the headrest rods.

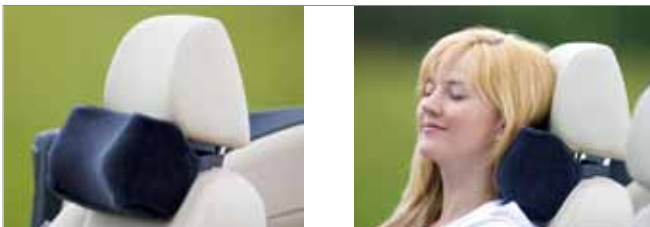

Car coat hanger „Chrom“

Can be used in conjunction with most vehicles with a headrest rod diameter of 16 mm or less.

0 64142 17

### NECK PILLOW MEMORY FOAM

- + Ideal travelling companion
- + More comfortable sleeping for your passengers
- + High quality memory foam
- + Shapes itself perfectly to natural contours
- + Prevents discomfort in neck and shoulders
- + Velvet-soft cover, black
- + With fastening to attach to headrest
- + Removable cover: washable, flame resistant

Neck pillow memory foam

Material:  
Textile: 75 % cotton, 25 % polyester  
Foam: 100 % PU (memory foam)

0 15256 01

### SAFESIT CAR BAG

Especially developed for long journeys with children, the child-orientated design with many practical details makes the SAFESIT car bag an indispensable accessory daily and on long journeys.

This article helps to store small items during daily and long journeys. Practical pockets, adjustable belts and easy fitting make travelling that much easier.

- + Ideal for the family
- + Fits on front or back of the seat
- + Easy to fix and fully adjustable

## SAFETY

### NON-SLIP MATTING

- + Easily cut with normal scissors
- + Universal use
- + Non-slip
- + Shock and sound-absorbent
- + Permeable to air, washable

- + Made out of recycled rubber
- + Specially for commercial vehicles (special VW Caddy II)
- + More protection for transport damage

0 32001 01

### STOPLOCK WITH LED

Reliable anti-theft protection without complicated electronics. The KAMEI stoplock makes steering for thieves practically impossible. In excess of 10,000 lock combinations, signal effect via the red-flashing LED acts as an additional deterrent to thieves.

No damage to the steering wheel or dashboard as the high-quality metal core is wrapped in a soft cover. Fitting it couldn't be easier: the security steel lock just needs to be slotted into position.

Universal fitting for all types of cars (also with airbag), steering wheel diameter max. 31 mm

## KAMEI PLEDGE

### QUALITY with a long tradition.

High quality material, elaborate workmanship and painstaking finishing are the outstanding features of our winning products - today as ever over the last 50 years. And in the future, because satisfying in the highest standards of quality continues to be our highest priority. KAMEI products are the best in their class.

### SAFETY first for better driving.

Whether driving on normal roads or taking part in sporting events, you have to rely on your equipment one hundred percent. The same applies to all parts: from the roof box to the smallest screw. On top of internal safety inspections, our products are also rigorously tested by independent organisations, such as the German TÜV.

### Form meets FUNCTION.

We see our products through the eyes of our customers. In addition to undergoing stringent quality inspections and safety tests, every KAMEI prototype is also put through a series of tough practical tests - so that we know for certain that our accessories are always reliable and practical in every day use.

Good DESIGN demands skill and expertise.

Our roots are in automotive design: we can boast numerous interior and exterior design inventions, such as the front spoiler or the steering wheel cover. With the same pleasure and commitment to innovation and styling, we incorporate the latest lifestyle and sports design developments.

Auto, Motor, SPORT.

Formula 1, skiing and surfing: the world of sport has a big influence on KAMEI's product lines. We are big followers of the latest technical and sporting trends, and are always setting ourselves new challenges. This passion is reflected in our outstanding products.

We love CARS.

KAMEI works on product development with leading German carmakers. The source of our inspiration is not only in our own backyard - Wolfsburg, the „Auto-city“ - but all around the world. Our overriding mission is to make car driving safer, more pleasant and more comfortable.
